Is April the Giraffe pregnant again? Park official says stay tuned...

The owner of the animal park that's home to April the Giraffe dropped a hint that she may be pregnant, just six months after she gave birth to a calf.

by Eun Kyung Kim / Nov. 10, 2017 / 7:23 PM ET

She's a giraffe so famous she only goes by her first name: April. And she may be pregnant.

Barely six months after the world breathlessly watched her [give birth to a son, April the Giraffe](#) may be expecting another calf.

The owner of upper state New York's Animal Adventure Park dropped a major hint while being [interviewed on live TV](#).

"We can't confirm or deny that," park spokesman Stephen Donnelly later told TODAY about the pregnancy speculation. "I honestly don't know."

More than 1.2 million people watched [April give birth to her son, Tajiri](#), on April 15.

April the Giraffe had already been a viral star months before then, after the owners of Animal Adventure Park, located in Harpursville, New York, began posting daily

updates of her condition and set up a live stream “[giraffe cam](#).”

ril the Giraffe **FINALLY** gives birth, but what should baby's name be?

The giraffe became so famous she even inspired [a viral spoof by a pregnant woman](#).

It's now just a waiting game before zoo keepers will know anything for certain.

Last month, however, the park noted on its Facebook page that “love is in the air” for April and her partner.

“April has been cleared for another pregnancy and has our blessing to allow nature to take its course,” the post said.

Donnelly said the same thing: “All I can add is, stay tuned!”
